Could you please send me those plans? They're not in the land acquisition folder.

Most recent plans have DND callouts on them too. Should be good to go.

Please disregard this email. I saw a teams message in December where you specifically point out these light fixtures not being impacted.

My apologies.

Derek,

Could you please verify precisely if the light poles that are on the edge of the proposed r/w area will be impacted by the project or not?

Thank you,
